Management Discussion and Analysis

INDUSTRY REVIEW

Hong Kong's economy contracts 3.3% year on year in the first three quarters of 2022, continuing the economic contraction to the third straight quarter. The Russo-Ukrainian conflict in the early 2022 was yet to be resolved and the surging energy and commodity prices that drastically changed the world's inflation expectations.

The continued outbreak of coronavirus and the rapid increase in interest rates induced by the US Fed have further dampened the confidence in the financial market, investors' attitude towards the stock market has become more prudent. The unfavourable investment sentiment and the volatility in the financial markets have exerted pressure on the Group's operations. According to the monthly market highlights provided by the Hong Kong Stock Exchange, contracted trading activities in the capital market are reflected in the decreasing average daily turnover for the securities market for the first three quarters of 2022, which reached HK\$124.1 billion representing a decrease of 31% as compared to corresponding period in a year earlier.

The total funds raised in the market for the first three quarters of 2022 was HK\$192.4 billion, which represented a decrease of 68% as compared to corresponding period in a year earlier.

BUSINESS REVIEW

Since over a decade ago, Fu Shek Financial Holdings Limited (the "Company") and its subsidiaries (collectively, the "Group") has been providing comprehensive financial services in Hong Kong, including (i) securities trading services including brokerage services and margin financing services; (ii) placing and underwriting services; and (iii) asset management services. During the six months ended 30 September 2022 (the "Reporting Period"), the Group's revenue was approximately HK\$19.9 million, which recorded a 8.1% decrease of total revenue for the corresponding period in 2021.

Securities Trading Services

Brokerage Services

The Group provides securities dealing and brokerage services and ancillary service to clients who maintain a trading account. Commission income from the Group's securities brokerage business and handling and other fee income for the Reporting Period decreased by 55.3% to approximately HK\$4.6 million as compared with that of the six months ended 30 September 2021 (the six months ended 30 September 2021: approximately HK\$10.3 million) and accounted for 23.1% (the six months ended 30 September 2021: 47.5%) of the total revenue. The decrease in revenue from brokerage services was attributable to the decreased commission income received due to decreased trading turnover which is in line with the market during the Reporting Period. The segment profit from brokerage services decreased by 59.8% to approximately HK\$2.9 million as compared with the corresponding period of 2021 (the six months ended 30 September 2021: approximately HK\$7.2 million) which is in line with the decrease in trading turnover during the Reporting Period.

Margin Financing Services

The Group provides financing services to facilitate its clients' purchase of securities on a margin basis in the secondary market and subscription to IPOs. Interest income from margin financing provided by the Group for the Reporting Period increased by 53.5% to approximately HK\$14.4 million as compared with that of the six months ended 30 September 2021 (the six months ended 30 September 2021: approximately HK\$9.4 million) and accounted for 72.7% (the six months ended 30 September 2021: 43.5%) of the total revenue. The growth in interest income from margin financing was mainly due to an increase in interest income derived from our margin clients as the demand for our margin financing services increased generally during the Reporting Period. The segment profit from margin financing services increased by 27.9% to approximately HK\$13.1 million as compared with the corresponding period of 2021 (the six months ended 30 September 2021: approximately HK\$10.3 million) as an allowance for impairment loss of approximately HK\$0.8 million was recognised under the expected credit loss model for accounts receivable arising from the business of dealing in securities while an allowance for impairment loss of approximately HK\$1.1 million was reversed for the corresponding period in 2021 and more finance costs incurred during the Reporting Period.

Placing and Underwriting Services

The Group provides placing and underwriting services by acting as (i) bookrunner, lead manager or underwriter of listing applicants in IPOs; and (ii) placing agent of listed companies in connection with their issuance or sale of securities, in return for placing and/or underwriting commission income. The commissions from placing and underwriting engagements vary on a case-by-case basis, as they are charged either based on pre-determined fixed fee or a fee calculated as a percentage of the total price of shares underwritten. Commission income from the Group's placing and underwriting services for the Reporting Period decreased by 56.8% to approximately HK\$0.8 million as compared with that of the six months ended 30 September 2021 (the six months ended 30 September 2021: approximately HK\$1.9 million) which is in line with the decrease in the total funds raised in the market and accounted for 4.2% (the six months ended 30 September 2021: 9.0%) of the total revenue. The segment result from placing and underwriting services recorded a loss of approximately HK\$14,000 (the six months ended 30 September 2021: profit of approximately HK\$0.5 million). The segment loss recorded was mainly due to more commission expenses incurred compared to the commission income recognised during the Reporting Period.

Asset Management Services

During the Reporting Period, the revenue of asset management services was approximately HK\$2,000 (the six months ended 30 September 2021: HK\$4,000) and the segment loss was HK\$88,000 (the six months ended 30 September 2021: HK\$86,000). The expansion of asset management services segment has met difficulties under the current generally unfavorable investment landscape.

OUTLOOK

With the implementation of massive vaccination programme in various places around the world, it is anticipated that the impact of COVID-19 pandemic will be moderated gradually and the global economies will rebound and Hong Kong remains as one of the world's strongest financial markets. The Group believes that the Hong Kong financial services industry, following its re-opening to the world, with its strengths of long development history, sound reputation, supportive policies and outstanding industry professionals, would remain in a top position worldwide. Many companies, who have listed in the US, are still looking for a secondary listing in Hong Kong to expand their market to Asia. The Group will leverage the knowledge and experience of our management team to seize opportunities as they arise, especially in the expansion of our margin financing services through obtaining and utilising our banking facilities. In response to the opportunities in the market, the Group will remain prudent towards external factors arising from the global and local economic situation and enhance its strengths to consolidate the Group's position in the industry. The Group will closely monitor the COVID-19 and proactively respond to its impact on the Group's financial position and operating results.

FINANCIAL REVIEW

Revenue

During the Reporting Period, the Group recorded a revenue of approximately HK\$19.9 million (the six months ended 30 September 2021: approximately HK\$21.6 million), representing a decrease of 8.1% compared with that of the six months ended 30 September 2021. The overall decrease was mainly due to decrease in brokerage services income while offsetting the increase in interest income from margin financing business during the Reporting Period.

Other Operating Expenses

For the Reporting Period, the other operating expenses decreased 37.4% to approximately HK\$2.9 million as compared with the six months ended 30 September 2021 (the six months ended 30 September 2021: approximately HK\$4.7 million). The decrease was mainly due to less compliance advisory fee and settlement and brokerage trading expenses, which was in line with the decrease in trading turnover during the Reporting Period.

Net Profit

For the Reporting Period, the Group's net profit was approximately HK\$8.7 million, which was an increase of 0.2% compared with approximately HK\$8.7 million from the six months ended 30 September 2021. Such change was mainly due to increase in interest income from margin financing services and decrease in other operating expenses while offsetting the decrease in brokerage services income and increase in impairment loss for accounts receivable arising from the business of dealing in Securities under the expected credit loss model as compared with the six months ended 30 September 2021.

LIQUIDITY, FINANCIAL RESOURCES AND CAPITAL STRUCTURE

The Group maintained a strong cash position with bank deposits, and financed its operations by cash mainly generated from bank borrowings. As at 30 September 2022, the Group had total bank balances for general accounts and cash of approximately HK\$119.4 million (as at 31 March 2022: approximately HK\$103.7 million). As at 30 September 2022, the Group had net current assets of approximately HK\$343.2 million, representing an increase of approximately HK\$8.4 million as compared with that of approximately HK\$334.8 million as at 31 March 2022. The financial position of the Group remained stable during the Reporting Period.

The Group's gearing ratio was approximately 0.09 as at 30 September 2022 (as at 31 March 2022: 0.09).

Gearing ratio is calculated based on total debts which represent bank borrowings only, divided by net assets as at the end of the Reporting Period.

Borrowings

The major source of debt financing of the Group was mainly from banks. As at 30 September 2022, the Group had bank borrowings of HK\$30.0 million (as at 31 March 2022: HK\$30.0 million). The bank borrowings were with a repayment on demand clause. Bank borrowings were at a floating rate of 1.7% p.a. over 1-week Hong Kong Inter-bank Offered Rate.

Pledge of Assets

As at 30 September 2022, the Group did not have any pledged assets (as at 31 March 2022: Nil).

Foreign Currency Exposure

As the Group only operates in Hong Kong and the majority of the revenue and transactions arising from its operations were settled in Hong Kong dollar, the directors of the Company (the "Directors") are of the view that the Group's foreign exchange rate risks are insignificant. Thus, the Group has not entered into any derivative contracts to hedge against the foreign exchange rate risk for the Reporting Period.

Capital Commitments and Contingent Liabilities

As at 30 September 2022, the Group did not have any significant capital commitment and contingent liabilities (as at 31 March 2022: Nil).

Employees and Remuneration Policies

As at 30 September 2022, the Group employed 16 staff (as at 31 March 2022: 15). The employees' remuneration was determined based on factors such as qualification, duty, contributions and years of experience. Staff costs primarily consist of fees, salaries, discretionary bonus and other benefits as well as contributions to the mandatory provident fund for the Directors and employees of the Group. Staff costs was approximately HK\$4.7 million during the Reporting Period (the six months ended 30 September 2021: HK\$5.4 million), representing a decrease of approximately 12.9%.

Save as disclosed under the section headed "Future Plans and Use of Proceeds" in the prospectus of the Company dated 31 January 2020 (the "Prospectus"), the Group did not have other future plans for material investments or capital assets as at the date of this interim report.

USE OF PROCEEDS

The net proceeds from the listing of the Company's shares on the main board of the Stock Exchange received by the Group, after deducting related expenses, were approximately HK\$90.6 million. These proceeds are intended to be applied in accordance with the proposed application set out in the section headed "Future Plans and Use of Proceeds" in the Prospectus. Such uses include: (i) expansion of placing and underwriting business; (ii) funding for margin financing business; (iii) establishment and renovation of a new office; (iv) expansion of workforce; (v) enhancement of IT systems; (vi) promotion and marketing; and (vii) working capital.

As at 30 September 2022, the unutilised net proceeds were placed with a licensed bank in Hong Kong.

In consideration of the stock market volatility arising from the prolonged COVID-19 crisis and uncertain economic outlook, the Group has adopted a conservative but flexible approach for utilising the proceeds effectively and efficiently for the long-term development of the Group. The Group has kept the expansion and development plans on hold during the Reporting Period, and planned to resume when the COVID-19 pandemic is under control or until it subsides.

The Directors regularly evaluate the Group's business objective and may change or modify plans against the changing market condition to ascertain the business growth of the Group. During the Reporting Period, the Directors considered that no modification of the use of proceeds described in the Prospectus was required.
